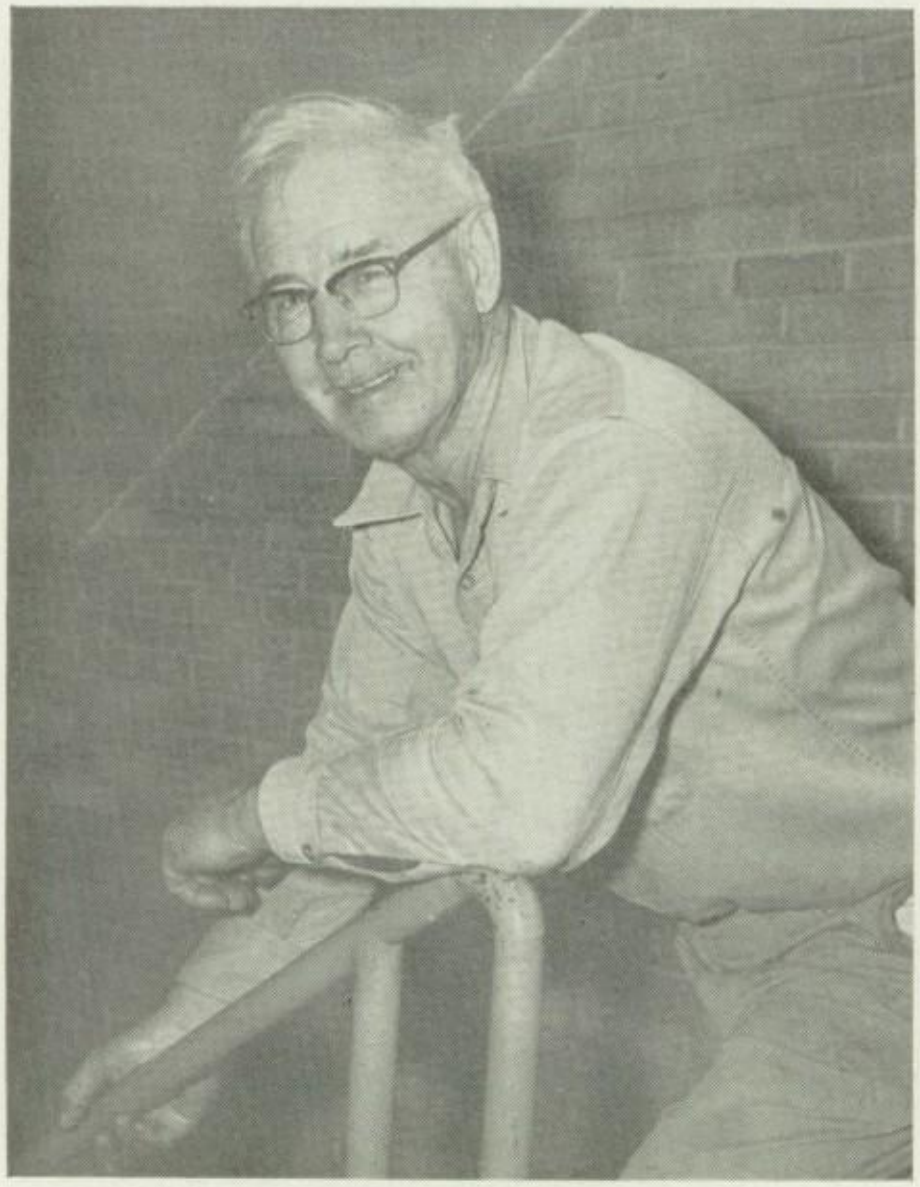
FOREWORD

The events and achievements of our high school days will soon become a memory.

With the hope that this effort may serve to awaken in the hearts of those who have passed through these doors of knowledge, some memories of their own high school days; with the hope that this book may arouse a feeling of nostalgia in the hearts of the Seniors; and with the hope that it may call forth a new note of pride, loyalty, and devotion in the underclassmen; we present this, our 1958 Hornet.

DEDICATION



We, the class of 1958, proudly dedicate our Hornet to George Adams.

George, as he is known by both students and faculty, will retire at the close of this year. He has completed 32 years at Eureka High School, more than any other person.

He is an efficient and conscientious worker, has given invaluable aid to everyone connected with our school, and has an inexhaustible knowledge of Eureka High School.

FACULTY

ADMINISTRATION

BOARD OF EDUCATION

BOTTOM ROW: Kenneth Cross, Roy Kuntz, Mrs. Margaret E. Riley, Earl Reel.

UNRETOUCHED PHOTOGRAPH OF 8-YEAR OLD FENCE
ON THE FARM OF PAUL A. NOBBE, WATERLOO, ILL.

galvannealing gives

RED BRAND

extra years of life

"I WOULD NEVER HAVE BELIEVED..."

Eight years ago, Paul A. Nobbe, of Waterloo, Illinois, put up some RED BRAND fence. In one field he spliced it to a new piece of ordinary galvanized fence.

The fence was not erected as a test of quality. But no test could have been more conclusive. Each roll of fence was regular dealer stock. It was erected by the same man. Spliced together, they had the same tension. They were exposed to the same weather and atmospheric conditions. Eight years later, here's what Nobbe has to say: "Believe me, whenever I buy fence in the future it will be **RED BRAND**".

This farmer is one of thousands who know that RED BRAND costs less because it lasts longer.

Knowledge . . . the key to your future!

Wise men know that knowledge is the key to the future. Knowledge is a search for truth . . . and truth is sometimes stranger than fiction. Happenings in the world today are more unusual and exciting than any mystery novel. The world is big . . . complex . . . strange . . . and yet it has a fascinating story to tell.

True adventures are waiting for you in the great books of learning. All the world's knowledge, wisdom, and experience are yours for the taking. All the wonders of our age are at your fingertips.

High school and college offer you this knowledge in courses like physics, history, chemistry, English, biology, and mathematics. In these courses you can better understand things such as sound and sight, atoms and anatomy, equations and electrons, government and grammar, or many other phenomena of nature and society.

Today . . . business and industry require an increasing knowledge of the world about us in jobs offered to young people. Tomorrow . . . even more education and training will be needed!

Such preparation today . . . can mean much to your success tomorrow.

the man who knows . . . gets ahead!
